**Why** Venice, California continues to have an international pull to artists and filmmakers who continue to pave the way toward expanding the language of underground, alternative cinema that is introduced to the rest of the world as counter culture. We have watched the viral and sacred grass roots catalyst of counter culture convert to critical mass. Today in 2011 - Venice continues to gentrify and there is little room for the artists with talent only. Come celebrate and expand with the collective creative consciousness of Independent filmmaking at Other Venice Film Festival!!
